

GENERAL INFORMATION

SMARTVIS D – natural modified pure polysaccharide.

SMARTVIS D it is a viscosifier with shear thinning properties for all types of drilling fluids including drill-in and milling fluids.

TYPICAL PROPERTIES

Appearance	Off-white free flowing powder
Solubility	Readily soluble
Dispersability	Excellent without lumping
Viscosity	Shear thinning properties High cuttings carrying capacity
Bulk density	600-700 kg/m ³
Moisture	Max. 8%
pH (1% solution)	7-9
Rate of addition (depending on fluid type)	2-5 kg/m ³ (1 - 2 lbs/bbl.)
Thermo stability	95° C

STORAGE

SMARTVIS D –should be stored in dry place for 24 months.

PACKAGING

SMARTVIS D packaged in 25kg multiply paper bags with PE liner.
